Total Body Modification/BioDynamic Resonance Technique

General Consent for Treatment

Highest Health is a ministry designed to help people in their own natural healing. Total Body Modification is a technique based on the principles of chiropractic. TBM is a safe, natural way of stimulating the body's nervous system to balance the immune system, which then allows the body to harmonize allergens.

All recommendations and treatment modalities used by Highest Health are employed solely to promote optimum health and nutritional status, and do not guarantee to be cures for acute or chronic disorders.

Total Body Modification is non-traditional in nature and has not been subject to conventional efficacy testing as recognized by the United States Food and Drug (FDA).

If a client feels as though he or she is not responding to the treatment of Total Body Modification, treatment should be sought from a physician practicing conventional medicine.

I have read and fully understand the description of services performed by Margie Hasley and of Highest Health explained above.
